

## WuJing Depot

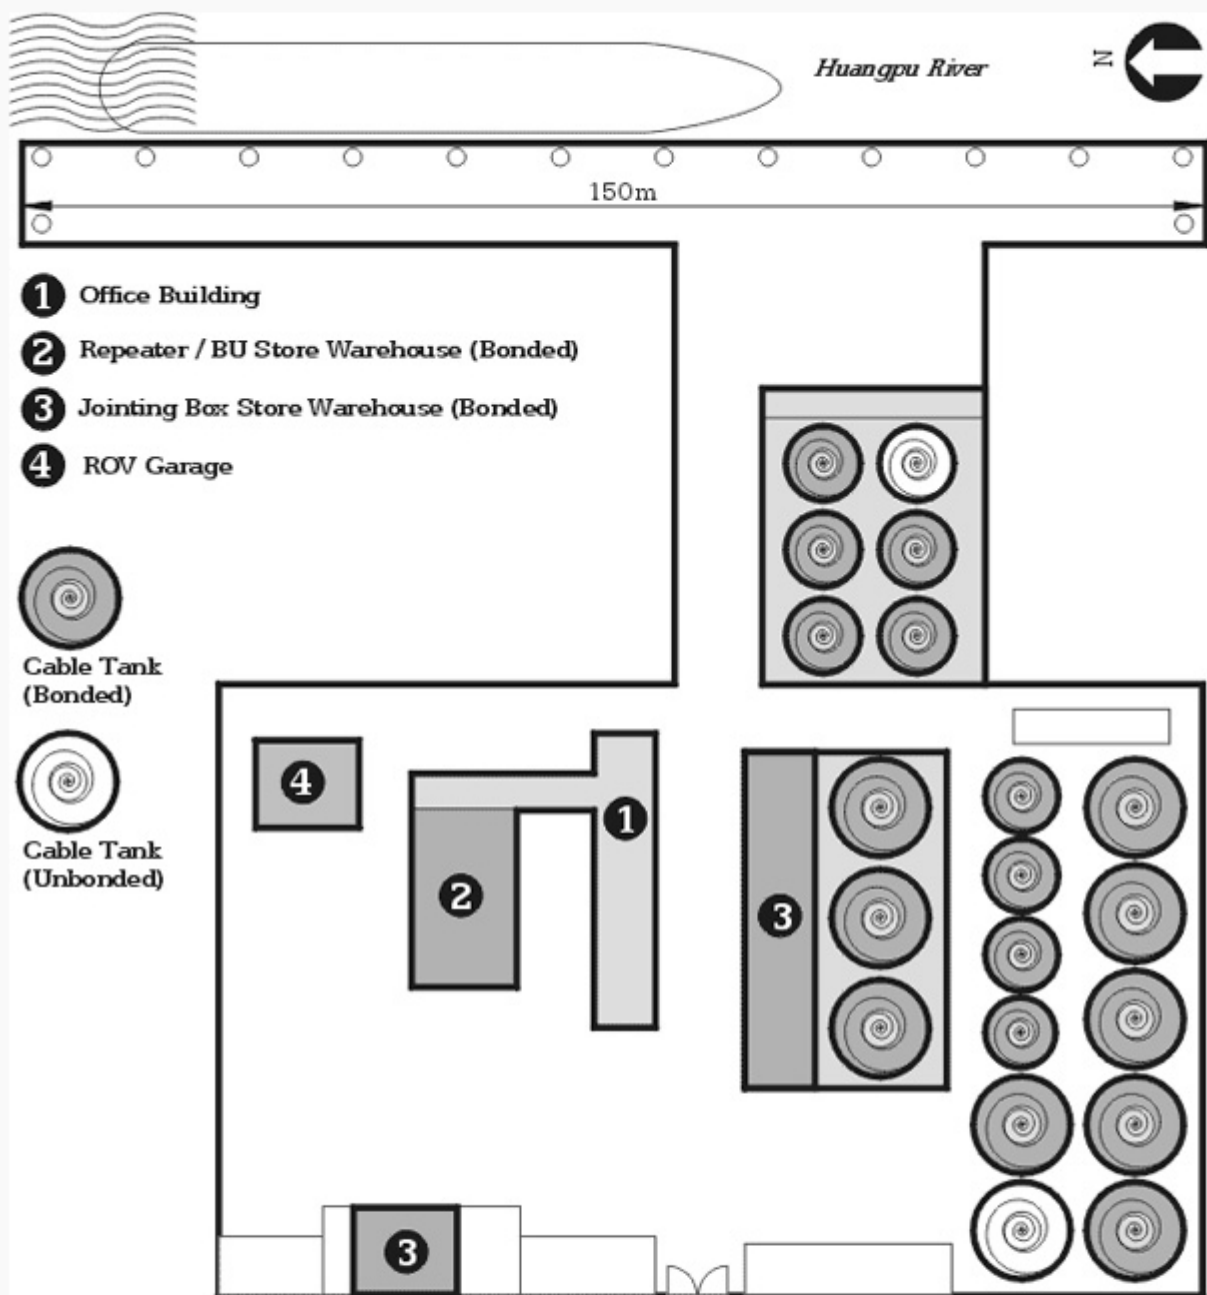

Located in Wujing, Shanghai, SBSS's cable storage depot is capable of providing bonded storage services for submarine cable, repeaters, branching units and other submersible plant on behalf of cable owners and system suppliers. Principally utilized for the storage of telecommunications cable system

spares, the facility was expanded during in 2001 with a total storage capacity of 3,841 cubic meters, and offers a strategic location for power cable and Oil & Gas operators spare equipment, with easy loading access on SBSS's dedicated vessel berth.

<b>GENERAL</b>			
No. of Tanks	Twenty (20)		
Dimensions of Tanks	10x	Volume	100m <sup>3</sup>
		Load	270 ton
	1x	Volume	256m <sup>3</sup>
		Load	966 ton
	5x	Volume	301m <sup>3</sup>
		Load	1,037 ton
	4x	Volume	270m <sup>3</sup>
		Load	746 ton
Storage Capacity	Cable		3,841m <sup>3</sup>
	Repeater/BU		231m <sup>2</sup>
	Joint box		354m <sup>2</sup>
Berthing Capability	Water depth		7m
	Length		150m
Facilities (loading/discharging etc.)	1 x one tonne cable hauler		
	1 x 1.5 tonne cable hauler		
	1 x five tonne fork lift		
	turn sheaves		

Cable ways etc.

### OUTLINE OF WUJING DEPOT:-

### STORAGE CONDITIONS

Cable	- Sheltered cable tanks, free from direct sunlight
	- Cable tanks can be filled with water, if required, with both ends left accessible to perform testing
	- Cable ends are sealed to prevent moisture penetration
Repeater / Branching Unit	- Climate controlled store room, free from direct sunlight

**EXTEND OF WORK**

Working Hours

- On a 8-hour per day and 5-day per week basis (normal working time)

- Provide 24-hour service, if required
